Letter from the Chairman

Dear Shareholder,

After a year of change, we are focusing on our strengths to accelerate our performance and transformation. Nestlé's reliable value creation model allows us to invest, innovate and grow. Our unique, iconic brands and products, an unmatched global presence, leading innovation and execution capabilities, and our people, position us for continuous value creation everywhere we operate. Under new leadership, we will assure the disciplined execution behind our Nutrition, Health and Wellness strategy and reinforce our reputation as a dependable, reliable company. And we will do so responsibly in a way that creates shared value for all our stakeholders.

We are making progress on our path to reduce absolute GHG emissions in our supply chain and to support the transition to a regenerative food system. Last year, for the first time we submitted our report on non-financial matters to an annual vote by shareholders as required by Swiss law. This year's vote will be on our Non-Financial Statement considering requirements of the European CSRD Regulation. In addition, for the first time we have issued a voluntary publication, Creating Shared Value at Nestlé, to highlight particularly relevant actions and accomplishments.

Nestlé's Board of Directors is highly engaged in overseeing the strategic direction of the company and taking decisive action when required. Continuous engagement with our shareholders takes place through our roadshows, investor meetings, analyst calls and Chairman's Roundtables, where we meet with investors from different geographies across the world.

Over the years, we have continued to strengthen the Board by adding new independent directors with diverse experience and skillsets directly relevant to Nestlé, for example, with respect to consumer goods, marketing, digitalization, food systems, sustainability, geopolitics and financial and operational expertise.

This year, the Board proposes to elect Laurent Freixe as member of the Board of Directors. Laurent Freixe has been with Nestlé for 38 years. He joined Nestlé France in 1986 and became the Head of the Nutrition Division of Nestlé France in 1999. In 2003, he was appointed CEO of Nestlé Hungary and in 2007 CEO of the Nestlé Iberian Region. In November 2008, Laurent joined the Nestlé S.A. Executive Board as Executive Vice President for Zone Europe and in 2014 was appointed CEO of Zone Americas. In January 2022, he was appointed CEO Zone Latin America. On September 1, 2024, Laurent Freixe was appointed CEO of the Nestlé Group. Under Nestlé's governance model, the Board delegates the operational management of the Company to one of its members ("administrateur délégué"). This ensures his complete strategic alignment with the Board and gives the CEO his full authority.

We will propose the re-election of all Board members and the Chairman for annual terms. Detailed profiles of each candidate are available on our website. If elected, I will be honoured to continue to serve as the Chairman of the Board of Directors. If elected, Pablo Isla will continue in his role of Lead Independent Director and Vice-Chairman, and he will chair the Board's Nomination Committee. Dick Boer, if elected, will continue to chair the Compensation Committee.

We will maintain our modernized Annual General Meeting format that allows shareholders to connect with us remotely. Once again this year, you will be able to follow the proceedings live through our electronic shareholder portal "GVMANAGER-Live". You can access the portal using your personal login or the QR code displayed in the invitation letter. You can also provide your voting instructions to the Independent Representative electronically through this shareholder portal. You can send any questions in advance of the meeting by submitting them to our share registry. The Chairman and the CEO will address major topics in their speeches, which will be webcast. We will enable online participation by live-streaming the meeting from the SwissTech Convention Center in Lausanne. Please note that there is very little parking space at the venue.

On behalf of our Board, executive management and the global Nestlé community, I would like to thank you, our shareholders, for your unwavering trust and support.

Yours sincerely,

Paul Bulcke
Chairman of the Board of Directors
